

Equitable Adaptation: Collaborating for Resilience

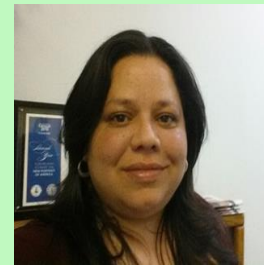

The challenging impacts of climate change disproportionately affect those with the least resources to prepare, sustain and recover such as low-income communities and many communities of color. How do municipal and county decision makers and civic leaders support social cohesion, and promote effective engagement with all community members, especially those that are likely to be most impacted? This webinar will cover:

- Tips for promoting effective engagement with community-based organizations and historically marginalized populations
- Useful methods for building equity into resilience and adaptation planning and implementation.

Damaris Reyes, Executive Director, Good Old Lower East Side, Inc.
(GOLES)

Abigail Abrash Walton, Co-Director, [Center for Climate Preparedness and Community Resilience](#), Antioch University New England

Christine Ash, Environmental Justice Coordinator, U.S. EPA - Region 2

Introduction: Abigail Abrash Walton, PhD – Co-Director, Center for Climate Preparedness & Community Resilience, Antioch University New England

Moderator: Christine Ash – Environmental Justice Coordinator, U.S. EPA - Region 2

Presenter: Damaris Reyes – Executive Director, Good Old Lower East Side, Inc. (GOLES)

LOCAL SOLUTIONS REPORT:

Identifying and meeting the needs of local
communities adapting to climate change

October 2016

Webinar Logistics

- If you can hear me, you are already connected to the Broadcast and do not need to call in.
- If you hear feedback and have connected via phone, please hang up and ensure your computer's audio is turned on.
- If you have a question, please write it in the Q&A section (not Chat) and select to All Panelists, so we can see the questions.
- The presentation will be recorded and posted to the Antioch website within a week: communityresilience-center.org.

Regional Collaboration for Resilience: How to build effective, sustainable cross-jurisdictional climate collaboratives

Participants in this webinar will learn how communities can collaborate at the regional scale to successfully advance climate mitigation and adaptation strategies. In this webinar, participants will learn:

- Specific models for regional collaboration and examples of how regional collaboratives can advance climate resilience;
- How to establish a regional network of key local decision makers; and
- How to identify clear first steps for regional resilience planning/implementation

Brian Ambrette, Coastal Resilience Manager, Eastern Shore Land Conservancy, Maryland

Sherry Godlewski, Environmental Program Manager, NH Department of Environmental Services

Moderator, Cynthia Greene, U.S. EPA New England
