

Regional Collaboration for Resilience: How to build effective, sustainable cross-jurisdictional climate collaboratives

Participants in this webinar will learn how communities can collaborate at the regional scale to successfully advance climate mitigation and adaptation strategies. In this webinar, participants will learn:

- Specific models for regional collaboration and examples of how regional collaboratives can advance climate resilience;
- How to establish a regional network of key local decision makers; and
- How to identify clear first steps for regional resilience planning/im

Identifying and meeting the needs of local
communities adapting to climate change

October 2016

Incorporating Climate Solutions into Day to Day Adaptation

Participants in this webinar will learn how to approach development, financing and implementation of climate adaptation strategies. This webinar will cover:

- How to determine those activities that a municipality already does and how to incorporate adaptation thinking into such day-to-day municipal processes;
- Incorporation of climate preparedness strategies into a comprehensive Master Plan;
- Develop measureable benchmarks for assessing progress towards stated climate adaptation and mitigation objectives.

Kristin Baja, Climate and Resilience Planner, City of Baltimore MD

Rhett Lamb, Assistant City Manager/Planning Director, City of Keene NH

Moderator, TBD, U.S. EPA
